1 · What is BCPL?

The **Bhartiya Corporate Premier League (BCPL)**, run by BCPL Sports Private Limited, is a structured T20 cricket league built for India's working professionals. Players register online, clear KYC and physical trials, enter a live player auction, and play a televised-style franchise tournament — live digital scoring, professional umpires, match-day production and a points table, all run centrally by the League.

A league, not a one-day event

Group stage → knockouts → final across the season, 10 franchise teams, player auction with a defined purse — the full franchise-league format.

Season 4 — the biggest yet

Three seasons completed. Season 4 opens October 2026 with 2.5 Lakh+ registrations already recorded on the League's own platform.

Corporate + cricket audience

Every registered player is a working professional — a high-value, hard-to-reach audience for consumer and B2B brands alike.

Own digital platform

Registrations, payments, live scores and points tables run on bcplt20.com — every sponsor logo lives where the audience already is.

Credible faces

Brand ambassadors **Sourav Ganguly** and **Zaheer Khan** front the League's campaigns and content.

Broadcast-ready

Season 4 matches are planned on **SonyLIV** and **FanCode #** — with ad inventory available to League sponsors.

Estimate / projection based on the League's own data and assumptions — not a guarantee or assurance of any specific reach, viewership or outcome.

Earning, deciding, spending

BCPL's players and followers are salaried professionals and business owners — the exact audience for finance, auto, tech, apparel, F&B, travel and consumer-durable brands.

Engaged, not passive

These are participants, not just viewers — they registered, paid, submitted videos and follow their own tournament journey. Engagement per follower is far deeper than a generic sports page.

B2B doors open too

Players come from companies across sectors. A League sponsorship puts your brand in front of professionals from hundreds of workplaces — useful for HR, SaaS and enterprise brands.

Consent-based engagement

Sponsor campaigns to the player base run through official League channels, consent-based and within the DPDP Act, 2023 — clean, compliant reach.

bcplt20.com

LIVE SCORES · POINTS · NEWS

Reels, match clips & player stories

Season content — auction moments, match highlights, player journeys — runs all season long. Sponsors are woven into this content, not just parked in a corner.

Ambassador-led campaigns

Campaign films and posts featuring Sourav Ganguly and Zaheer Khan carry sponsor branding as per tier — celebrity association at league cost, not yours.

Always-on league platform

Live scoring pages, points table and news on bcplt20.com run through the season — sponsor logos sit on the pages fans refresh the most.

Registration-season spikes

Registration windows drive traffic surges to League pages and social — high-frequency exposure ahead of the tournament itself.

Estimate / projection based on the League's own data and assumptions — not a guarantee or assurance of any specific reach, viewership or outcome.

4 · Broadcast & Streaming — SonyLIV and FanCode

Season 4 matches are planned for streaming on **SonyLIV** and **FanCode** — putting BCPL in front of a national OTT sports audience beyond its own social channels.

Sponsor ad slots on stream

League sponsors receive ad slots in the match streams as per their tier — your brand plays inside the cricket, alongside the on-ground branding you already own.

On-screen presence

Title and Powered-By partners are integrated into broadcast graphics — score bugs, replays, strategic-timeout stings and lower-thirds, as per tier.

Commentary mentions

Tiered verbal integrations — title naming in every score read-out, sponsored segments ("Strategic Timeout presented by..."), umpire-review mentions.

Highlights & clips carry you further

Broadcast branding travels into highlight packages and social clips after every match — one placement, many surfaces.

Straight talk: streaming plans, ad-slot counts and viewership depend on final platform agreements for Season 4 and are marked #. Exact broadcast deliverables per sponsor are listed in the sponsorship agreement before signing — no verbal promises.

5 · The Faces of BCPL

Sourav Ganguly

Former India captain & one of Indian cricket's most trusted leadership voices — Brand Ambassador, BCPL. Features in League campaign films, launch content and key season moments.

Zaheer Khan

India's premier fast-bowling great — Brand Ambassador, BCPL. Fronts player-facing content, trials and tournament-phase campaigns through the season.

WHAT THIS MEANS FOR A SPONSOR

Instant credibility

Your brand appears in campaigns fronted by two of India's most recognised cricketers — association a standalone brand campaign cannot buy at this cost.

Co-branded content

Title & Powered-By tiers receive sponsor integration in ambassador campaign content, as agreed in the sponsorship agreement.

Season-long, not one-off

Ambassador association runs across the season narrative — launch, auction, matches, finale — keeping your brand in the story throughout.

Personal appearances by ambassadors at sponsor events are not included in any tier by default; such requests are separate commercial discussions with the League.

6 · Season 4 Sponsorship Opportunities

All amounts are **per season, indicative and negotiable**, exclusive of GST. Final pricing depends on category exclusivity, deliverable mix and timing of commitment.
